

**Subject: EuPIA CHARTER on raw material selection and exclusion
for printing inks and related products
Issued: March 2026**

This is to confirm that all toners and developers sold by Xeikon (QB-I, QA-P, QB-IC, QB-CH, QA-CD, QA-SR, QBE, QB-T, QC and corresponding SPOT colours) are produced in compliance with the “EuPIA CHARTER on raw material selection and exclusion for printing inks and related”, dated March 2026.

The new Eupia Charter replaces the former “Eupia Exclusion policy for printing inks and related products”.

The Charter can be downloaded from the EuPIA website – www.eupia.org – should it be required.
